GIGAMEDIA SUPPLIES BOURSORAMA BANQUE

(Boursorama Banque headquarters, Ile Seguin. Boulogne Billancourt)

THE RENOVATION PROJECT

Established in 1995, Boursorama is now active in three sectors (online brokerage, financial information and online banking).

As a 100%-owned subsidiary of Société Générale since June 2015, Boursorama experienced the strongest growth in the online banking sector in 2015 with a 24% increase in customers over the year. The bank has 757,000 customers, who are all becoming increasingly connected. In 2015, the Boursorama.com website cemented its leading position as an economic and financial news website (there are an average of 31.5 million visits to the website per month!).

The bank has two 100%-owned subsidiaries (Selbank in Spain and Onvista in Germany). Boursorama's headquarters are located in the Green District of Île Seguin-Rives de Seine in Boulogne Billancourt.

This is a latest-generation building, which takes account of new office habits and changes in users' needs. These offices are outward-facing and are creative and versatile, as well as combining comfort with performance and high environmental quality.

The building is HQE certified. The building's energy consumption will be below RT 2012 (-30%) (Thermal regulations).

GIGAMEDIA'S CONTRIBUTION

Boursorama's 810 staff are housed in this 8800 m² building, which will be equipped with more than 70 Gigamedia cameras, including outdoor and indoor cameras as well as several POE injectors.

Inside the building, the chosen installer, ASTEM RIE, is setting up **Gigamedia 2Megapixel domes** and outside it is installing the brand's **tube cameras**.

Gigamedia is proud to be working with these discerning partners and demanding customers, in a modern and environmentally friendly building in a prestigious location within the Île de France region.
